OLYMPIA CD 400

Meet the Olympia CD 400. The remarkable new electronic calculator. There's never been a machine like it.

The scope of the Olympia CD 400 is fantastic. Five functions, including percentage, give it the versatility it needs to tackle any business problem. The simplicity of its operation makes it the perfect addition to any office.

The Olympia CD 400 has a keyboard designed for maximum ease of operation. Three banks of keys, color coded according to function are shaped to respond to the lightest touch, for high-speed, error-free operation. Best of all, the CD 400's keyboard is so simply designed that in just a few short minutes anyone can master it.

The operator has the choice of setting the decimal at any point between one and nine places. Once set, all entries and results neatly align around a common decimal point, automatically, with no possibility of error.

Simply enter your figures on the keyboard and press the appropriate calculating instructions. The CD 400 will show all the factors, sub-totals and results instantly.

The Olympia CD 400 performs with absolute silent accuracy. The only time it takes to perform any operation is the time it takes to touch the keys. This is one of the most advanced, and well-constructed portable electronic calculators available today. It is built to last, and to give its owner years of trouble-free service. Look into it today. And let it report in for work tomorrow.
